

# Digital Solutions

Bring your data to life using visually captivating and interactive web tools and widgets

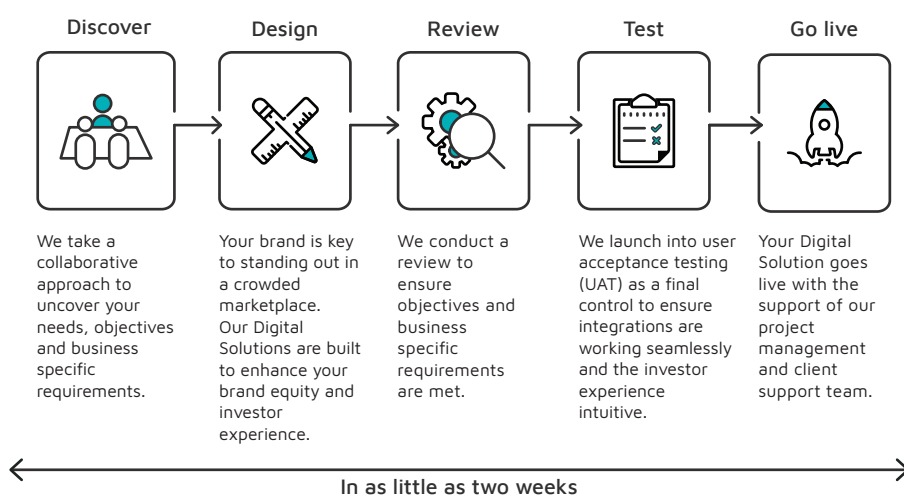

Create an engaging investor experience across digital channels using our interactive web tools and widgets. Fund managers and fund distributors are able to bolster investor engagement and drive self-servicing through a digitally enhanced sales and marketing tool set.

Our solutions have been designed for seamless integration and for users to access continuous improvements to functionality and enhancements to data powered by FE fundinfo.

Tools include:

- Fund centres, fund filters and price tables,
- Charting and comparison tools,
- Portfolio analysis tools, and
- Fact sheets.

## How it works

## Why FE fundinfo

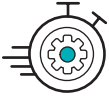

### Our promise

FE fundinfo connects fund managers and fund distributors facilitating efficient investment decisions based on trusted, insightful information.

Contact us at [enquiries@fefundinfo.com](mailto:enquiries@fefundinfo.com) for more information on how we can help you grow your assets under management, including:

- Report Production
- Data Feeds
- Document Dissemination

## Benefits

### Seamless integration and quick delivery

Our in house configuration platform reduces project timescales and ensures seamless integration of our data and your website. We match your brand design, investment product range and features so you can put your best foot forward.

### Continuous innovation and evolution

We are constantly looking at ways to improve our offering through new technological advancements in the market. This ensures that you benefit continuously from the latest data, functionality and innovative solutions.

### Software and data built to maximise potential

Some companies produce software and import third party data while others collect data and outsource software development. Here at FE fundinfo, we build our own software around the data we already hold, thereby maximising the potential of both.

## Key features

### Simple and functional

It can be challenging building tools that deliver accurate data in an engaging way. Our Digital Solutions embed functional, attractive digital tools within your website to best serve the interests of your clients.

### Responsive designs

All our tools are fully responsive for smart phones and tablets, and we also offer PDF and HTML display options to satisfy every requirement.

### Web accessibility

Our Digital Solutions are designed to comply with accessibility standards, making it possible for people with disabilities to understand, navigate and interact with your site.

### Cloud hosting

All our tools are hosted in Microsoft Azure, an integrated cloud platform. This makes it easy to back up and restore applications quickly and efficiently.
